

# INFRASTRUCTURE DISPUTES

SENSIBLE COMMERCIAL RESOLUTION OF INFRASTRUCTURE'S MOST COMPLEX, HIGH VALUE DISPUTES

---

We help clients across the world to deliver large-scale, complex infrastructure and transport projects.

When disputes arise, our contentious team has the experience and industry knowledge that is required to achieve the optimum outcome for you on complex, high value and often multi-jurisdictional disputes and all types of construction claims. Working closely with our non-contentious colleagues, the disputes team will often know the project, the parties and the issues of contention long before any formal dispute arises; and will assist you to avoid formal disputes wherever possible.

We advise all of the participants in projects in sectors as diverse as water & waste, power, rail, airports, ports, roads, telecommunications, and defence and social infrastructure, including PPP/ PFI. Our clients include sponsors, banks, governments, contractors and equity participants.

Our disputes lawyers frequently act on infrastructure disputes across the globe, including disputes under construction contracts, O&M contracts, PFI/PPP agreements, offtake agreements, financing documents and joint venture agreements.
