GENERATING POSITIVE RETURNS

Welcome to HSF Impact, our pioneering team for the founders, investors and asset managers driving the next wave of social finance

All over the globe, entrepreneurs are devising innovative commercial solutions to social and environmental challenges. Supporting entrepreneurs, and those investing in their businesses, to do well by doing good is something we get excited about.

Through our market-leading social finance and sustainable investment practice - **HSF Impact** - we support founders, investors, asset managers and social finance intermediaries to build global connections, maximise positive social and environmental impact and realise growth potential.

In this fast-growing diverse market, we are committed to using our knowledge, skills and connections to help clients navigate the legal and commercial issues that flow from their financial and impact objectives.

Our team operates across a wide variety of sectors, focussing on issues relating to education, energy, agribusiness, financial inclusion, climate change, consumer products, housing and healthcare. We cover the full range of legal issues, including intellectual property, data protection, tax, employment and regulatory expertise, as well as advice on corporate structuring, governance, capital raising and related transaction documentation, commercial agreements, finance, real estate and dispute resolution.

We also regularly leverage our market-leading pro bono practice to deliver free legal support to socially responsible investors, investees and intermediaries.
