

INVESTIGATIONS

HELPING CLIENTS TO ESTABLISH THE FACTS AND RESPOND
DECISIVELY

Investigations by law enforcement and regulatory bodies into alleged wrong-doing have increased dramatically in number, severity and complexity in recent years. In today's global marketplace, it is now common to see large scale cross-border investigations involving multiple agencies and legal systems.

Our world-class investigations team spans over 25 offices around the world. We specialise in criminal, government and regulatory investigations, both internally and externally driven, in more than 40 countries across Asia, Australia, Africa, Europe, the Middle East and the US.

We have worked on some of the largest, highest-profile and most demanding national and international investigations in recent memory.
