

PROJECT FINANCE

THE FOREFRONT OF DEVELOPING INNOVATIVE STRUCTURES AND SOLUTIONS

Infrastructure and energy projects connect and power our economies, creating growth opportunities for developed and emerging markets alike.

We understand the challenges that project participants face across the entire spectrum of developing and financing [projects](#).

We work with our clients to develop innovative project financing structures and solutions. Our role as trusted advisers goes beyond simply advising on the financing of a project and extends to strategic advice and analysis, contract negotiation and the structuring, planning and documentation aspects of transactions.

Our sector specialists can advise you on projects across energy, natural resources and infrastructure, including market-leading rail and road projects, the most complex power projects globally (eg the largest nuclear and most innovative renewables projects), LNG financings and transactions across the LNG value chain, and the largest reserve-based lending, structured commodity and upstream oil and gas project financings.

Our global team is at the forefront of developing innovative multi-source project financing structures and solutions including project bond financings, working with lenders, ECAs/DFIs, sponsors, governments, trading houses and other project participants.

RECENT EXPERIENCE

GAZPROM

Advising on the project financing for the €13 billion Amursky Gas Processing Plant in Eastern Siberia.

SIX COMMERCIAL LENDERS AND EIB

Advising on the financing of the €1 billion IJmuiden lock project in the Netherlands.

THE GOVERNMENT OF NEPAL

Advising in relation to the negotiations for the development of four large-scale cross-border hydroelectric power projects in Nepal.

THE PROJECT COMPANY

Advising on the financing of the Nord Stream 2 pipeline project between Russia and Germany via the Baltic Sea.

HIGH SPEED TWO LIMITED

Advising on the financing of the development of the HS2 railway – the most significant railway project in the United Kingdom and Europe, and the first new railway north of London in over 120 years.

THE BAZALGETTE CONSORTIUM

Advising on the financing, construction and delivery of the £4.2 billion Thames Tideway Tunnel project.
