EXPERIENCE

Amanda's main focus is environmental law. She has experience considering the full range of environmental laws including those related to water, waste, air, and climate change. Amanda is also significantly experienced in advising mining and oil and gas clients in relation to the general and environmental regulation of those. In addition to advising clients on the law and providing due diligence and transactional advice, Amanda also represents her clients in judicial review proceedings, internal appeals and high court litigation.

Amanda also has experience in consumer protection, civil aviation, data protection, administrative and constitutional, customary and commercial law.
