EXPERIENCE

Blair is a Manager within the ALT eDiscovery and Legal Technology team and is based in Melbourne. Leveraging his experience across a broad range of matters, Blair leads a team of experienced legal technologists in the delivery of technology based solutions across the full matter life cycle.

Blair has over 15 years of experience in the industry and is responsible for the application and delivery of eDiscovery services in support of a variety of regulatory and litigation matters for a broad range of clients and sectors. Blair also has extensive experience in working with some of the firm's largest clients on a variety of transactional processes and has particular expertise with the establishment and management of online data rooms.

Blair enjoys the opportunity to leverage his technical skills and experience across contentious and non-contentious disciplines to offer solutions to help our firm and clients achieve their objectives.
