EXPERIENCE

David is an Australian-qualified associate based in London with a corporate and commercial background and specialised Technology, Media and Telecommunications experience in the public and private sectors. David's experience spans software licensing, data sharing and IT outsourcing arrangements through to telecommunications outsourcing and infrastructure procurement projects, digital solutions, and centralised and decentralised fintech products.

David's experience spans the Australian and the South-East Asian markets, and includes advising clients on

- IT outsourcing projects
- managed services outsourcing and related integration and implementation services
- software and other licensing arrangements
- general commercial service and equipment supply and distribution arrangements
- cross-border data sharing, including the offshoring of data from Australia to the EU
- transitional services arrangements
- public IT procurement projects.

David's experience includes advising:

- an Australian telco on the procurement and support of 5G radio access and core network equipment, as well as outsourcing and sharing regional telecoms infrastructure
 - a major Australian bank on transitional services arrangements for software and IT infrastructure arising from the divestment of part a business from the banking group
 - Australian state government departments on the procurement, integration and support of IT and telehealth equipment
 - multinational payment network on the establishment of an e-wallet across South-East Asia
 - several cryptocurrency exchanges as to the nature of tokens, asset-backed and cryptocurrencies under the financial services laws in Australia.
