---

## EXPERIENCE

She advises vendors and purchasers of substantial energy and resources assets, assisting them with due diligence and transaction structuring. Resource owners regularly seek Jau-Shi's advice on project development and structuring, joint venture work, sale and transportation arrangements, and government regulation.

A native English speaker, Jau-Shi speaks conversational Mandarin.

Jau-Shi's experience includes,

- Santos' project development activities in the Gladstone LNG project, including upstream field development and ownership structures
- Yanzhou Coal Mining Company's \$8 Billion merger with Gloucester Coal
- Queensland coal consortium's bid for the Queensland Rail coal network (bid value of \$5.1 Billion+)
- AGL's gas processing and transportation arrangements in the Spring Gully Project, Queensland
- North West Shelf consortium's sale of equity to China National Offshore Oil Corporation, as a component of the A\$25 billion LNG supply contract between the consortium and CNOOC
