EXPERIENCE

Drawing on over 20 years IT experience and 14 years as an Architect across Finance, Investment Management, Property and Legal industries, Peter works to align the technology roadmap with the short, medium and long term needs of the business. Peter has guided the technology choices on multiple large scale (+\$100M) transformation programs.

Over the last 2 years, Peter has been working with lawyers and technology partners to develop Smart Legal Contracting. Focus has been on unlocking the value of Blockchain for complex contracts while ensuring the contracts work with the needs of the law and the client.
