EXPERIENCE

Reshma works with the team on various arbitration matters before major international institutions with a focus on disputes in the energy sector. She advises and represents multinational corporations, states and state owned entities on their disputes and dispute avoidance strategies.

Reshma's experience includes advising:

- a project company on disputes arising from the construction of a refinery and petrochemical complex in South East Asia, including two SIAC arbitrations, multiple emergency arbitration proceedings and foreign court proceedings; the claims are valued

at over US\$2 billion

- an energy conglomerate in an arbitration under a petroleum concession agreement arising from amendments to ministerial regulations by the concessionaire state, with the dispute valued at over US\$2 billion
- a government agency in its capacity as project owner under a long term concession for a waste to energy plant in Southeast Asia in connection with insolvency proceedings commenced by the majority shareholder of the project company and its EPC Contractor
- a Chinese conglomerate in a Singapore seated SIAC arbitration in connection with claims arising from the non-completion of a share purchase agreement in respect of a Turkish power business in which the claimants are third party funded
- Power producers in multiple Singapore-seated ICC investor treaty arbitrations against a state and/or the state's water and power agency
- A state-owned power company on its rights under a power supply agreement with a multi-national corporation undergoing corporate reorganisation
- A statutory board on its rights under various contracts for the construction and operation of a power plant against a multi-national corporation undergoing corporate reorganisation
