## **EXPERIENCE**

Sameer has multi-jurisdictional exposure having worked across two continents, spanning both the common and civil law systems. This, together with his experience both in private practice, and in-house at one of the world's largest oil and energy companies, allows Sameer to be uniquely placed to understand client needs, and to effectively deliver solutions in a manner which takes into account commercial, cultural and regional nuances.

Sameer's experience includes:

- advising a large property asset management company in relation to fit-out and major demolition works over three properties across England ranging between £5m - £22m
- advising the largest developer, manufacturer and distributor of marine electronics on the recent refurb and fit-out for their new office premises. Including preparation of full suite of contract documents
- advising Cain International and partners on the £680million residential and mixed use development at The Stage, Shoreditch
- advising Capco on its regeneration of Earl's Court in London, a 55 acre residential-led scheme on the site of the old exhibition halls, including suite of framework appointments
