

REAL ESTATE FUNDS

REAL ESTATE DELIVERED BETTER

Investment funds play an increasingly important role in the global real estate market. We have the technical expertise, market experience and deep real estate sector focus to help you structure, establish, operate and, where necessary, exit the optimal fund vehicle to deliver your investment strategy.

We guide our clients through the regulatory, tax and structuring complexities of both domestic and international fund raising markets to deliver innovative financial products to suit their needs.

We can advise across retail and wholesale funds, investor-directed portfolio services, wrap platforms, and managed investment schemes through to equity, hybrid, debt and structured product offerings across all real estate asset classes and products.

Using our broad range of experience, we can help create funds products which reflect market expectations and therefore minimise risk, limit negotiations and maximise returns.

RECENT EXPERIENCE

AEW EUROPE AND SWISS LIFE FUNDS 'EVI'

Advised on (i) the establishment of an SCI (French investment property); and a OPCI (French property regulated fund) and (ii) the reorganisation of a French real estate portfolio for AEW Europe Value Investors.
