SPECIALISTS HOWEVER COMPLEX THE ARBITRATION

Our dedicated arbitration specialists across the globe work together to advise clients in every aspect of arbitration, including drafting complex dispute resolution clauses, resolving disputes, and assisting clients to locate assets and enforce arbitral awards.

We advise on commercial arbitrations however complex under a broad spectrum of laws from both civil and common law systems. We are experienced in arbitrating under the rules of all major arbitration institutions, as well as having conducted numerous ad hoc arbitrations. Our genuine sector knowledge, commercial awareness and regional sensitivity are unrivalled. We advise clients and conduct arbitrations in a number of languages. Once you have an arbitral award, we can help you to enforce it around the world.

Choosing arbitrators and expert witnesses can be highly significant in achieving a successful outcome and we offer our clients in-depth knowledge of both. Members of the arbitration group regularly sit as arbitrators and this valuable insight into the arbitral process from a different perspective helps us to identify winning strategies.

Our practitioners conduct their own advocacy as part of a fully integrated service. We also regularly act in court proceedings in support of arbitration and have achieved ground-breaking outcomes for our clients in a number of jurisdictions.

We have a wide range of commercial clients and our experience spans multiple sectors, including aerospace & defence, banking & finance, construction & engineering, consumer products, energy & natural resources, infrastructure and transport, manufacturing & industrials, mining, pharmaceuticals, hospitality & leisure and TMT.

[INSIDE ARBITRATION](#)

This publication, Inside Arbitration, is intended to give our clients that personal insight by sharing with you the perspectives of our international arbitration partners from across the globe. Our articles look at the global landscape for disputes and dispute resolution, commenting on regional trends in particular markets or sectors or identifying future trends. We also focus on particular points of interest arising from our cases with wider relevance and how, practically, we addressed those issues, often by combining the skills of our practitioners across our global network. There are interview pieces aimed at drawing out some of the truly unique skills and backgrounds of our partners. Finally, we aim to take advantage of our contacts across the global arbitration market to bring our clients the inside track from regional and international institutions.
