

ENFORCEMENT AND INVESTIGATIONS

DELIVERING PROPORTIONATE AND EFFICIENT RESPONSES TO POTENTIAL AND EMERGING PROBLEMS

One of the most notable aspects of the transforming global regulatory landscape has been the dramatic increase in the number, complexity and severity of investigations and enforcement actions undertaken by regulators at all levels.

Whether it is for alleged manipulation of inter-bank or foreign exchange rates, violation of anti-money laundering and sanctions rules, corruption concerns or market abuse, coordinated national and international investigations are on the rise. Moreover, the resulting damage - in internal costs and time, regulatory or criminal penalties and reputational or commercial losses - can be severe.

We provide our clients with world class advice in relation to internal and external investigations, whether domestic or cross-border drawing on our global network and deep understanding of both regulations and regulators.
