

INSIDE ARBITRATION - ISSUE 13

22 February 2022 | Insight
Guides

The latest issue of our global arbitration focus includes analysis on energy transition, mainstreaming China's dispute regime, industry diversity and investor-state tensions.

Inside Arbitration is intended to give our clients a personal insight by sharing with you the perspectives of our international arbitration partners from across the globe. Our articles look at the global landscape for disputes and dispute resolution, commenting on regional trends in particular markets or sectors or identifying future trends.

We also focus on particular points of interest arising from our cases with wider relevance and how, practically, we addressed those issues, often by combining the skills of our practitioners across our global network. There are interview pieces aimed at drawing out some of the truly unique skills and backgrounds of our partners. Finally, we aim to take advantage of our contacts across the global arbitration market to bring our clients the inside track from regional and international institutions.
