

INFRASTRUCTURE

DESIGNS FOR LIFE

With globalisation and population growth driving change in both developed and emerging markets, unprecedented investment sums are required for the development and maintenance of crucial infrastructure.

As governments continue to face funding pressures, they need innovative solutions and delivery partners to provide the infrastructure required for tomorrow's world.

Our [government](#) and private sector clients trust us to work on their most complex, market-defining, 'first of a kind' projects and transactions.

Our global infrastructure team has worked together over many years and has an outstanding record advising sponsors, contractors, funds, banks, governments and other public bodies on the complexities and nuances of regional and cross-border infrastructure and [construction and engineering](#) projects, transactions and disputes. We have a true depth of resource with over 200 lawyers across the firm's international network focused on the infrastructure sector.

With a multi-disciplinary global infrastructure team of world-leading sector specialists and regional experts, we provide commercial insight and legal advice from the [consenting and planning process](#), through to [construction](#), financing, operation, maintenance and ultimately the refinancing or sale of major projects and assets.

Our [infrastructure disputes](#) lawyers guide our clients and help them to achieve the best commercial outcomes through settlement negotiations, litigation, arbitration, and all forms of alternative dispute resolution.

POLITICAL AGENDAS AND SOCIAL EXPECTATIONS ARE ALTERING THE DELIVERY OF INFRASTRUCTURE.

To thrive you must adapt or lead the change. Watch our dynamic video to see how we're helping clients across the world.

RECENT EXPERIENCE
