

ADMINISTRATIVE AND PUBLIC LAW

HELPING CLIENTS NAVIGATE THE RISING TIDE OF PUBLIC LAW

Commercial and regulated industries are faced with an increasingly complex landscape of public sector law and governance, resulting in more contentious and non-contentious issues arising which require specialist advice.

We have an unrivalled track record helping claimants, defendants, interested parties or intervening third parties in administrative and public law issues across a variety of proceedings, including judicial review, tribunal proceedings, governmental and other inquiries, disciplinary proceedings involving public bodies, statutory appeal work and procurement disputes.

We use our breadth of experience in domestic law and European Convention on Human Rights matters, environmental regulation, freedom of information legislation across multiple jurisdictions to assure the best results for our clients.

When acting in litigation for the private sector, we deal with the substantive legal issues involved in government regulation and decision making within a legal and strategic framework. This preserves ongoing relationships with government and other public bodies important to our clients' businesses.
