

# INSIDE ARBITRATION - ISSUE 14

12 July 2022 | Insight  
Guides

---

The latest issue of our global arbitration focus includes analysis on the implications for investments and contracts affected by the war in Ukraine, the future of energy disputes, sustainability in arbitration, the latest on arbitration in Dubai and the ICSID rules, as well as cyber and APAC private equity disputes.

Inside Arbitration is intended to give our clients a personal insight by sharing with you the perspectives of our international arbitration partners from across the globe. Our articles look at the global landscape for disputes and dispute resolution, commenting on regional trends in particular markets or sectors or identifying future trends.

We also focus on particular points of interest arising from our cases with wider relevance and how, practically, we addressed those issues, often by combining the skills of our practitioners across our global network. There are interview pieces aimed at drawing out some of the truly unique skills and backgrounds of our partners. Finally, we aim to take advantage of our contacts across the global arbitration market to bring our clients the inside track from regional and international institutions.
