## EXPERIENCE

Greig is a solicitor advocate who assists clients in resolving commercial disputes by negotiation, ADR, litigation and arbitration. He specialises in insurance disputes, assisting policyholders, brokers, insurers and reinsurers on claims and coverage issues in relation to all types of insurance and reinsurance.

He is highly experienced in advising clients on some of the largest and most complex insurance claims in the market, across many sectors, including financial institutions, infrastructure, real estate, pharmaceuticals and hospitality. His experience extends across all types of insurance, with particular emphasis on management liability (D&O/POSI), cyber, crime/bankers blanket bond, civil liability (PI), property and business interruption, public and products liability and trade and credit risk. He also regularly advises clients on non-contentious matters such as policy drafting and review.

He also advises in relation to a wide range of general commercial disputes in areas ranging from professional negligence to contractual disputes and restitutionary claims. His matters commonly have an international aspect.

Greig is ranked in *Legal 500 UK 2021* as a next generation partner for both insurance litigation (for policyholders) and insurance and reinsurance litigation. He has been described variously in *Legal 500 UK* as "extremely smart" and "very capable, approachable, solutions focused and very much understands the commercial aspects of the insurance market with which his clients interact".

Greig's experience includes advising:

- the Financial Conduct Authority in its ground-breaking business interruption insurance test case for losses arising out of COVID-19, as well as various policyholders with COVID-19 claims
- a financial institution on cyber, crime, civil liability and D&O claims arising from a major IT issue
- a UK bank on a D&O insurance claim in relation to shareholder litigation, thought to be one of the largest ever D&O recoveries
- a major manufacturer in relation to a complex financial loss and public liability insurance claim arising from sales of products
- the claimants and a leading reinsurer in relation to a claim for recovery of property losses under the Riot (Damages) Act following a riot and fire at Yarl's Wood Immigration Detention Centre in 2002, including a successful appeal to the Court of Appeal on preliminary issues
